SUMMARY

Software Engineering graduate with hands-on experience building backend and full-stack applications using Node.js, Express.js, TypeScript, PostgreSQL, Prisma, MongoDB, and Mongoose. Experienced in REST API development, database design, authentication, authorization, API testing, and React-based frontend development. Seeking Junior Backend, Full-Stack, or Graduate Software Engineer opportunities.

EDUCATION

University of Bedfordshire | PCPS College

Sep 2023- june2026

BSc (Hons) Software Engineering — Second Class, Upper Division

WORK EXPERIENCE

Frontend Developer Intern — NavaNexa

May 2025 – August 2025

- Integrated REST APIs into mobile applications using **React Native**.
 - Implemented application navigation and state management.
 - Participated in debugging, testing, and code reviews.
 - Collaborated with developers using **Git/GitHub** in an Agile environment.
-

PROJECTS

ProjectPulse — Software Project Health & Risk Management Platform

Node.js | Express.js | TypeScript | PostgreSQL | Prisma | Zod | Python | Flask

- Built REST APIs with JWT authentication, ownership authorization, validation, and centralized error handling.
- Developed project analytics, technical health review, automated recommendations, and API testing.
- Integrated a Machine Learning risk prediction service with risk probabilities, feature-based explanations, and recommended actions.

ShopEase — MERN E-Commerce Application

Node.js | Express.js | MongoDB | Mongoose

- Built backend APIs for authentication, products, carts, categories, and orders.
- Implemented JWT authentication using HTTP-only cookies, role-based access control & stock management.
- Designed and managed MongoDB data models using Mongoose.

LibraryHub — Library Management API

Node.js | Express.js | Prisma | PostgreSQL | Zod

- Developed REST APIs for users, books, authors, categories, and borrowing records.
 - Implemented Prisma/PostgreSQL data models, authentication, validation, and error handling.
 - Tested and verified API endpoints using Postman.
-

TECHNICAL SKILLS

- **Backend:** Node.js, Express.js, TypeScript, REST APIs, JWT, Authentication, Authorization, Middleware
- **Databases:** PostgreSQL, Prisma, MongoDB, Mongoose, MySQL
- **API & Testing:** Postman, API Testing, Request Validation, Error Handling, Debugging
- **Frontend:** React.js, Vite, React Native, JavaScript, HTML, CSS, Tailwind CSS
- **Programming:** JavaScript, TypeScript, Python, Java, C#, Dart
- **Languages:** English, Nepali
